Jaipur, Rajasthan, India | Open to Relocation

EDUCATION

Vellore Institute of Technology (VIT)

B.Tech in Computer Science Engineering – E-Commerce Technology | CGPA: 8.06/10.0

India

October 2022 – May 2026

National Foundation, Rajasthan

High School Diploma (RBSE) – Mathematics & Computer Science | 94.80%

Rajasthan, India

July 2020 – August 2021

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, React Native (Expo), Node.js, Express.js, Spring Boot, Tailwind CSS

Databases: PostgreSQL, MongoDB, Database Design & Optimization

Cloud & Tools: Git, GitHub, Docker, Vercel, Postman, Swagger, CI/CD Pipelines

Core Concepts: REST API Design, JWT Authentication, RBAC, Data Structures & Algorithms, MVC Architecture, Agile/Scrum

EXPERIENCE

Web Developer Intern

November 2024 – December 2024

Zidio Development

Bengaluru, Karnataka, India

- Developed and deployed full-stack web applications using JavaScript frameworks (React.js, Node.js), implementing responsive UI components with HTML5 and CSS3 that reached production
- Designed and optimized RESTful APIs for efficient client-server communication, improving data retrieval performance and ensuring cross-browser compatibility
- Collaborated with cross-functional teams in an agile/scrum environment, participating in code reviews, sprint planning, and technical discussions; delivered clear project status presentations to team leads | Certificate

PROJECTS

Mini CRM Backend System | NestJS, PostgreSQL, Prisma ORM, TypeScript, Docker

Jan 2026

- Architected a production-grade RESTful API backend using **NestJS** with **PostgreSQL** and **Prisma ORM**, implementing **JWT authentication** and **RBAC** for secure multi-role user management; containerized with **Docker** for cloud-ready deployment
- Designed scalable module structure with clean separation of concerns across controllers, services, and DTOs; integrated **Swagger** for auto-generated API documentation

Multi-Vendor E-Commerce Platform | React.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS

Feb 2025

- Built a full-stack multi-vendor platform with **Customer, Vendor, and Admin** roles, **JWT authentication**, **RBAC**, and secure RESTful APIs using **Node.js** and **Express.js**; deployed on **Vercel** cloud platform
- Implemented shopping cart, order tracking, inventory control, analytics dashboard (**Recharts**), image uploads, email notifications, and a normalized **MongoDB** schema with optimized search/filter performance

Product Management System | Next.js, Spring Boot, Java, MongoDB, TypeScript, Tailwind CSS

Aug 2024

- Developed a scalable full-stack product management system with **Next.js** frontend and **Java Spring Boot** backend, implementing **RESTful APIs**, **JWT-based authentication**, and **RBAC** for Manager and Store Keeper roles
- Applied core CS concepts including **data structures**, **database design**, and **MVC architecture** to implement inventory management, product CRUD, and search/filter features; presented solution demos to faculty evaluators

Free Game Mobile App | React Native, Expo, JavaScript

Mar 2025

- Built a cross-platform mobile application using **React Native** and **Expo**, implementing multi-screen navigation with reusable component architecture across screens, games, and assets folders
- Demonstrated flexibility in learning a new tech stack beyond web development, applying **JavaScript** skills to deliver a functional mobile experience with context-based state management
